CNC Machining

Quality
Inspections

- More than 30 CNC machines
- Vertical & horizontal machining centers
- Live tooling - single, dual & multi-head
- Paint, powder coating, & e-coat capabilities
- Quality laboratories - World class quality tools
- Certifications: IATF, ISO-9001, minority owned
- SensrTrx - Smart Factory / Automation
- SolidWorks 3D modeling software

Product Components

Suspension: Front & rear knuckles, control arms, damper forks, brake calipers

Engine & Drive Train: Transmission clutch housings, timing chain covers, valve covers, crank cases, oil pans, exhaust manifolds, brackets

Materials

Ductile iron, aluminum, steel
